LOW LEVEL SECURITY

DETER.

LOW LEVEL SECURITY SOLUTIONS

WIDE LANE ACCESS GATES.

Safe and secure entry to a secured area should be easy and comfortable for all users. Our access gates provide precisely that. Access gates are an essential component of your overall risk mitigation strategy and should not be overlooked when considering equal access for all.

This type of entrance not only supports disabled access, but also provides a comfortable alternative to users such as those who are carrying large bags, pushing prams – or simply older, and more comfortable with a broader option. These gates can easily integrate with other (higher security) lanes and with most access control systems.

KEY BENEFITS

- Wide passage for disabled access and goods delivery
- Economical with a low-carbon footprint

- Works well as part of a larger lane configuration or as a stand-alone option
- Serves as a visual deterrent against possible infiltration
- Assists guard force in managing the flow of employees and guests into a building
- Transparent and unobtrusive
- Ability to control the number and direction of people passing through the entrance
- Works in tandem with visitor management software for a digital record of all guests inside buildings

ADVANTAGES FOR USERS

- A feeling of safety and security in the workplace or public environment
- Spacious and comfortable passage
- Equal access for all
- Easy, safe and fast to use

Access gates are an essential component of your overall risk mitigation strategy and should not be overlooked.

PRODUCTS IN THIS CATEGORY.

THE WIDE LANE ACCESS GATE RANGE

Our low security deterrent solutions are straightforward and effective in controlling large volumes of people and managing disabled access or large deliveries – which require additional room for a pleasant user experience.

Usually used in conjunction with medium security speed gates, these wide lanes are designed to perfectly complement our series of speed gates, and are ideal for your unique application. They are available in manual and automatic versions.

OUR WIDE LANE ACCESS GATE RANGE

Winglock Swing:

An intuitive single-wing side gate coordinating with the Lifeline series of speed gates

MARKET SEGMENTS FOR LOW SECURITY

LEVEL UP OVERVIEW.

If our standard specifications do not quite suit your need, we open up opportunities for you to 'Level Up' where it counts most. You can also do this according to your most motivating value driver.

Talk to your entry expert who is trained to work with you to know where you will get the most impact in terms of levelling up in the areas most essential to you.

You can Level Up in any of these categories:

THROUGHPUT

Add: width / height / configurations

SECURITY

Add: Additional sensors / tall glass

SAFETY

Add: Fail-safe / fail-secure / warning decals / audio and visual cues / Touchless integration

AESTHETICS

Add: Material colour / shape / branding

TECHNOLOGY

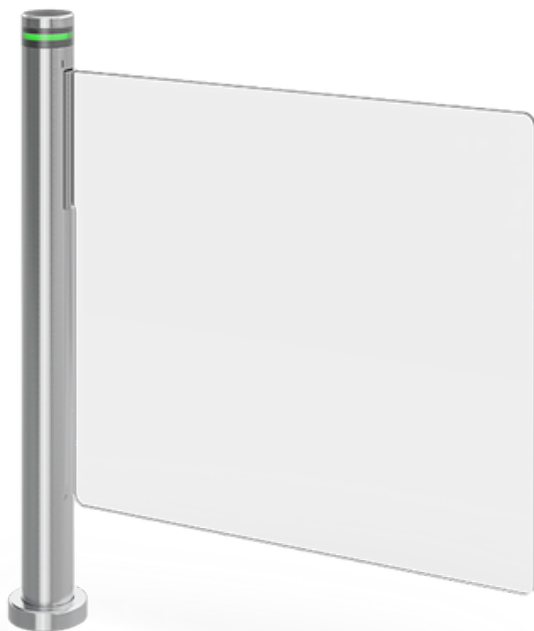

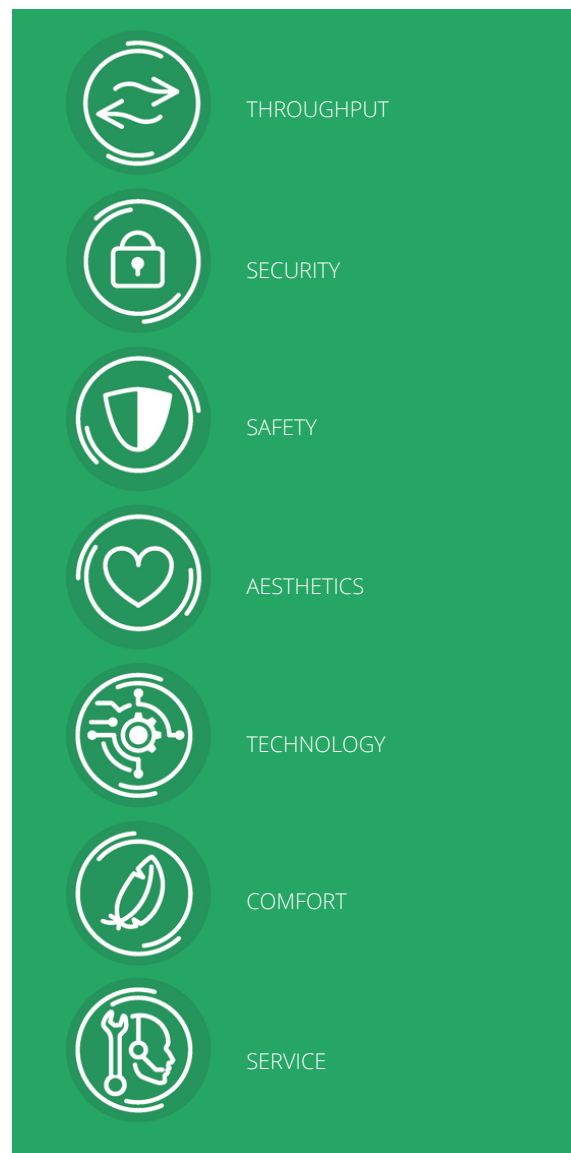

Add: Biometrics / access control

COMFORT

Add: Disabled entry / lighting / energy saving mode

SERVICE

Add: Service and maintenance packages

TRAINING AND SUPPORT

With hundreds or thousands of visitors passing through an entry every day, proper installation and continued operation are vital. Professional installation and regular service and maintenance can help minimise unexpected down-times. Boon Edam's service and maintenance teams are familiar with the effects of throughput and local weather conditions on your entry and can offer service and maintenance contracts that correspond to your requirements perfectly. With a program of regular training and certification for all our installation and maintenance staff, their knowledge and experience are assured.

THIRD PARTY INTEGRATION

All of the products in the low security entrance range can easily integrate with most access control systems. Dry contacts are provided, and the side gate can conveniently form part of your overall security picture, for example, via the BoonTouch. If you want to 'Level Up' the security of your side gate – it is possible by seamlessly adding an additional access device such as a card reader or barcode scanner. This can be integrated on the products column, or we can provide you with a stand-alone pedestal which is perfectly coordinated to your other security entrances.

OUR REACH IS GLOBAL.

We have been in business for 150 years manufacturing premium aesthetic and security entrance solutions in the Netherlands, United States of America and China. We can confidently say that we cover every corner of the globe with subsidiary companies in major cities across the globe. Furthermore our global export division not only partner with our distributors, but also offer direct sales and service to every territory. This wide net allows us to have a strong global footprint as well as a personal grasp of local markets and their unique entry requirements.
