

BOONTOUCH.

REMOTE CONTROL ACCESS FOR A **SAFER ENTRY**

OVERVIEW

The BoonTouch remote control panel allows receptionists and security guards to easily and quickly allow access to different visitors securely. The panel has a capacitive touchscreen which allows for authorised users and personnel the ability to operate all linked security solutions within the building through a simple touch.

AN INTUITIVE AND VARIABLE - SOLUTION

With the help of interface experts and after extensive usability testing, Boon Edam has created a clear and simple design that is intuitive to operate. The control panel can control up to six different security access solutions remotely from a reception or security desk. The user-friendly interface allows for each product solution to be operated individually or simultaneously.

HOW IT WORKS

BoonTouch gives those managing the facility full control over the bank of entry products installed. Alerts that have been set off by unauthorised access are shown on the display screen to highlight exact areas of breaches. Each security lane can be controlled individually. This functionality means that even if certain lanes are not in use or must be locked down, the rest of the entrances can still be operated. The system also allows for flexibility in that different levels of users are available – making management safe, easy and effective.

KEY FEATURES

- Touchscreen
- Simultaneous operation
- Remote operation
- Alarm visibility
- Choice of mounting options
- Retrofit-able on current installations
- Language configurable
- Configurable functionality
- Contemporary design

KEY BENEFITS

- Full control and flexibility of entry operation
- Full visibility
- Intuitive
- Retrofit options
- Space-saving

COMPATIBLE PRODUCTS

Many of our product range are perfectly compatible with the BoonTouch. Speak to your entry expert to find out more.

LEVEL UP OR UPGRADE – WE OFFER FLEXIBLE SOLUTIONS

Buildings are designed to last a lifetime; so are our entry solutions. However, entry requirements change as the way we work and live changes, as rules and regulations are updated and as technologies evolve. Our accessory products are the perfect way to upgrade or update your existing Boon Edam entrance solution. More information on retrofits and upgrades can be found by asking your entry expert consultant.

OUR REACH IS GLOBAL.

We have been in business for 150 years, manufacturing premium aesthetic and security entrance solutions in The Netherlands, the United States of America and China. We can confidently say that we cover every corner of the globe with subsidiary companies in major cities across the globe. Furthermore our global export division not only partner with our distributors, but also offer direct sales and service to every territory. This wide net allows us to have a strong global footprint and a personal grasp of local markets and their unique entry requirements.
