

ENSURING YOUR SUCCESS.

Our people are our greatest asset, offering an unmatched, end-to-end experience. Check out some of the roles below to discover why we've become the market leader after 145 years in business. Note that this is a continuous process that is repeated each time you place an order or upgrade an existing entrance solution.

NATIONWIDE SALES TEAM

Our sales team is committed to working alongside you to find the best entrance solution for your unique needs. They're here to help you solve your toughest entrance challenges via virtual or on-site entry evaluations.

ENGINEERING

Our engineers create custom submittal drawings for every project and never stop testing our security entrances to ensure they work reliably and effortlessly, and play well with other technologies.

MANUFACTURING FACILITY

Our production teams make your safety their mission. They build every entrance to order in our 200,000 sq. ft. factory in North Carolina using the highest quality materials and technologies.

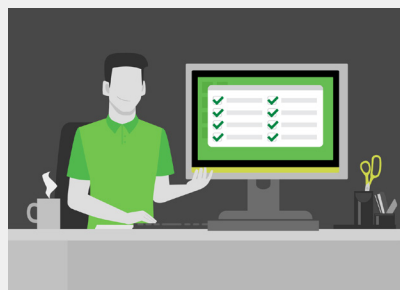

SHIPPING AND LOGISTICS

Once your entrance has been built, it's got to get into your hands and your space. Our shipping and logistics professionals do the legwork to ensure deliveries are accurate and on-time - on a global scale!

INSTALLATION COORDINATION

From shipping and storage, to floor excavation and electrical tie-ins, you can leave the details to the installation management team. They provide project oversight and web-based training to ensure every installation goes smoothly, without surprises.

SERVICE AND PREVENTATIVE MAINTENANCE

Our nationwide team of dedicated service technicians are our "boots on the ground," covering hundreds of miles a day to provide unmatched service and preventative maintenance on your security doors and turnstiles.
