

The Turnlock is now available with the **BE Secure Overhead Detection System**

- Prevents two people from passing through the same compartment with one badge read (piggy-backing)
- Turnstile can either stop immediately, preventing entry, or generate an alarm to the ACS
- Indoor and Outdoor use
- Also includes Walk-Away Detection which knows if an authorized person DOES NOT PASS THROUGH after receiving authorization
- Patent-Pending design

Turnlock 150

Turnlock 100

Turnlock 200

Available as an option with new Turnlock 100/150/200 models or as an upgrade to installed Turnlock 100/150 models
