## **BULLET-RESISTANT PACKAGE.**

A HIGHER LEVEL OF **PROTECTION**

## OVERVIEW

Upgrade the security level of our security door and portal series by incorporating bullet-resistant glass, coupled with extra door reinforcements. These additional security precautions can help save the lives of people from an attack with firearms from the exterior of the building.

Used at government buildings, military bases and high-end business, the decision to implement a bullet-resistant product that safeguards a building against an attack with firearms has become increasingly more common. Our Bullet-Resistant Package protects the entrance from immediate infiltration through the use of a firearm, and keeps those directly inside the door safe, giving them time to move to a safer location.

## UL LEVEL 3 BULLET RESISTANCE

Bullet-resistant glass and reinforced doors protect your security doors against an active shooter attack. This Bullet-Resistant Package is available with the Tourlock 180 and Circlelock Solo security doors, equipping them with the ability to stop three .44 magnum bullets, or a bullet twice as heavy and significantly faster than the bullet of the most common handgun, a 9mm semi-automatic. If the security door is on a building façade, it is recommended that the adjacent storefront be upgraded to include bullet-resistant materials as well.

### KEY FEATURES:

- Bullet-resistant, UL Level 3 glass (29mm thick)
- Ability to stop a bullet from three .44 magnum bullets
- End and side posts of door and portal reinforced with 1/8" steel-plate lining
- Tourlock 180 canopy reinforced with 7/16" bullet-resistant fiberglass

### KEY BENEFITS

- Additional time for users to flee to safety
- Peace of mind in the event of an attack with firearms

### COMPATIBLE PRODUCTS

- Tourlock 180
- Circlelock Solo

### SPECIFICATIONS:

1. **Door wing glass:** clear, poly-glass laminate, bullet-resistant, UL Level 3 glass (29 mm thick)
2. **Curved sidewall glass:** clear, poly-glass laminate, bullet-resistant, UL Level 3 glass (29mm thick)
3. **Reinforced end and side posts:** 1/8" steel-plate lining
4. **Reinforced canopy facade on non-secure side:** aluminum lined with 7/16" bullet-resistant fiberglass
5. **Reinforced canopy roof:** two 7/16" bullet-resistant fiberglass plates in semi-circle configuration

# OUR REACH IS GLOBAL.

---

We have been in business for 150 years manufacturing premium aesthetic and security entrance solutions in the Netherlands, United States of America and China. We can confidently say that we cover every corner of the globe with subsidiary companies in major cities across the globe. Furthermore our global export division not only partner with our distributors, but also offer direct sales and service to every territory. This wide net allows us to have a strong global footprint as well as a personal grasp of local markets and their unique entry requirements.
