THE LIFELINE BOOST.

THE ACCESS CONTROL MOUNT ACCESSORY

The Lifeline Speedlane Swing optical turnstile is displayed with the Lifeline Boost on the right.

OVERVIEW

Security in buildings is becoming not only an option, but a necessity. As responsible owners and managers of these secured areas, the decision to upgrade existing security to include an additional layer at a certain sensitive point is a hot topic right now. By installing the Lifeline Boost access control pedestal in conjunction with a Lifeline Speedlane or Speedlane Compact optical turnstile, you can integrate reliable tailgating detection with virtually any type of authorization solution available in the market today.

LEVEL UP YOUR ENTRANCE WITH TIGHTER FRICTIONLESS SECURITY

Using modern and intuitive technology, this pedestal mount guides each visitor through to their destination without delay or inconvenience. An array of proven and clear light symbols indicate what to do next, from authorization steps through to the exit. It is important to ensure authorized access and the variety of options of verification we provide with our pedestal truly give you the ability to suit your unique needs perfectly. In this post-pandemic world, a seamless and touchless solution is fast-becoming the new normal.

ENDLESS FLEXIBLE COMBINATIONS IN AN EASY 'PLUG-AND-PLAY' PRODUCT

This pedestal mounts gives you the freedom to integrate with your own chosen access control or biometric device, and at the end of the day you can be rest assured that the Lifeline Boost pedestal mount will look like it should have been there all along. Never an afterthought. The pedestal houses a vast assortment of security access integration options and does so in a sophisticated and aesthetic way. Here is where design really meets security. It's amazing what a big impact such a small footprint can have.

The Lifeline Boost access control pedestal is available in 3 models:

1. **Standard Premium:** Suitable for the integration of a card reader, barcode reader or biometric devices.
2. **Card Collector:** Suitable to integrate a collector device for visitor management.
3. **MorphoWave Compact:** Suitable to integrate the Idemia MorphoWave Compact 3D fingerprint scanner.
