

Installation & Service Inclusions.

Items Included with Boon Edam “Installation”

- Pre-installation Site Walk – Basic inspection of site readiness for installation
- Off-loading from truck – Receipt of products and movement to installation area
- Installation of product
- Disposal of crate
- Commissioning of product - After product is completely installed and Access Control System (ACS) representative is present, Boon Edam technicians will ensure that the product is installed correctly, and functions as designed with the ACS and fire.

Items Included with Boon Edam “Supervision”

- Review the site requirements with the third-party to ensure all requirement items are clear. This may be done remotely.
- A Boon Edam technician will be present during the installation to supervise the third-party team in the installation of the unit(s). The Boon Edam technician must not be considered part of the labor requirement for the installation.
- A Boon Edam technician will supervise the commissioning of the unit(s) if power, ACS, and fire are all in place during the time of installation.

Items Included with Boon Edam “Commissioning”

- Commissioning of product - After product is completely installed and Access Control System (ACS) representative is present, Boon Edam technicians will ensure that the product is installed correctly, and functions as designed with the ACS and fire.

Items Included with Boon Edam “Assistance”

- Review the site requirements with the third-party to ensure all requirement items are clear. This may be done remotely.
- A Boon Edam technician will be present during the installation as a part of the labor requirement to assist the third-party team in the installation of the unit(s).
- A Boon Edam technician will be physically on site to assist the third-party partner with the commissioning if the commissioning is taking place during the installation or there was a separate commissioning trip paid for.
