## SPEEDLANE COMPACT SURFACE MOUNT PLATFORM.

AN INNOVATIVE, **SURFACE MOUNT ACCESSORY** FOR EFFORTLESS ENTRY CONTROL

Elevate your entrance solution with Boon Edam's Speedlane Compact Surface Mount Platform, a modular, adaptive platform designed exclusively for the Speedlane Compact Optical Turnstile. This innovative, surface mount platform eliminates the need for floor trenching or drilling, making it ideal for buildings where traditional trenching is not feasible or permitted.

## OVERVIEW

The Speedlane Compact Surface Mount Platform is a versatile, non-anchored flooring solution that enhances Boon Edam's Lifeline Speedlane Compact optical turnstile. Designed for locations where trenching or drilling isn't an option, this modular platform provides a seamless, ADA-compliant foundation for secure entry lanes in various configurations. It can be installed as a free-standing solution or anchored into the floor if conditions permit, offering flexibility to meet your facility's specific requirements. With built-in conduits for streamlined power and wiring, the Speedlane Compact Surface Mount Platform offers a high-performing, adaptable entry solution for any space.

## BUILT-IN CONDUIT FOR POWER AND LOW-VOLTAGE WIRING

The Speedlane Compact Surface Mount Platform provides standard ½" conduit for mains power to reach each e-tray on Primary and Interlane cabinets. Its raised floor structure enables low-voltage wiring to be neatly routed underneath the platform, maintaining a clean look.

## ADA-COMPLIANT AND STRUCTURALLY ROBUST

Safety and accessibility are our priorities. This platform supports a weight capacity of 500 lbs per square foot, making it ADA-compliant and robust enough for heavy foot traffic.

## FLEXIBLE AND MODULAR DESIGN

Our surface mount platform system can be configured to fit various entrance layouts, from a single lane to four lane arrays, ensuring an adaptable solution for any facility's needs. We also offer a surface mount platform system designed for our Winglock Swing gate.

## SPEEDLANE COMPACT OPTICAL TURNSTILE CONFIGURATIONS

Choose the setup that best suits your entrance requirements:

- Standard Width: 24 1/4"
- Wide Width (ADA): 36" Clear Opening
- Single Winglock Swing Optical Gate: Available in multiple widths
- Double Winglock Swing Optical Gate: Multiple width options
- Combinations of the above for a fully customized layout

**With the Speedlane Compact Surface Mount Platform, you can bring a higher level of convenience, safety, and customization to your entry management without altering your existing floors.**
